

# Reng Gang

Reng Gang was born in 1979 in Tin Ringler. He graduated from the College of Art and Design in Inner Mongolia in 2000. After graduation, he taught there for several years. For now, Reng prefers to travel, looking for new subjects and show new work. His paintings are fresh and often plein air. He uses a heavy palette to create texture and depth in his work. The colors are pure and vibrant, allowing the viewer a refreshing moment with a simple subject. Reng Gang is becoming highly sought after by corporate and private investors. His work will certainly become a valued addition to any collection.
